

# Moustafa Mourad

## .Net full stack developer

 Mourad |  Moustafa Mourad |  moustafamorad83@gmail.com |  +02-0102-530-2461

## SUMMARY

---

ITI graduate and a .NET developer with hands-on experience using C#, ASP.NET, and MSSQL. Over the past period, I've been working on building and improving web applications, focusing on how systems are structured and how to make them scalable and maintainable. I enjoy writing clean code, boosting performance, and staying up to date with new technologies that help me build better software

## EXPERIENCE

---

### Software Engineer

#### Q-Tech (Alqemam) – Mansoura

June 2024 – Present

- Used ASP.NET MVC, AJAX, and T-SQL/PL-SQL to build and improve system features, while also enhancing legacy code on both backend and frontend to boost performance, reduce bugs, and simplify future updates.
- Supported digital transformation in KSA by automating administrative cycles like delegation, temporary assignments, and reflections—to speed up the process and improve coordination using .
- Created reports to help managers make better decisions and keep things clear.
- Added and updated map features to connect geographic information with existing records.

## AWARDS & HONORS

---

2024 **2nd Place – QTech Hackathon**, in collaboration with ITI & QTech

Recognized for developing a *Price Comparison Website* as both the graduation project and a freelance solution during the 9-month Professional Diploma at ITI.

## EDUCATION

---

Oct 2023 - June 2024
